## CONCEPT NOTE OF THE NATIONAL WEBINAR

Social Media has come to occupy a very significant position in our daily lives. Most of us are connected with social media platforms like twitter, facebook, instagram, youtube and the likes. These platforms play a major role in shaping information flow with respect to diverse issues and aspects in the contemporary world. While the social media platforms have acquired the role of spreading information as a primary source, what cannot be ruled out as a fact is that these platforms many a times serve as carriers of fake news, misinformation and also act as machineries for building propaganda thereby politicizing and sensationalizing matters.

Hence this medium through which information and misinformation gets channelized has both positive as well as negative impacts upon shaping public opinion at large. It is believed that prudent usage of social media can be instrumental in altering people's behavior positively while misleading content can only create further divide, fear and stigma across places among people.

## PROFILE/BIO-NOTE OF THE KEYNOTE SPEAKERS OF THE NATIONAL WEBINAR

The first Keynote speaker, Dr. Tilak Jha is currently an Assistant Professor at Times School of Media, Bennett University. ## REPORT OF THE NATIONAL WEBINAR

ON

### “RETHINKING INFORMATION FLOW: SOCIAL MEDIA IN TIMES OF COVID-19”

The Principal, Dr. Subhash Biswas, in his inaugural lecture of the national webinar threw light upon several pertinent issues with respect to the growing significance of social media. He also pointed out the need for timely, reliable information on social media in times of fake news. Social media still is regarded as a source for looking for people, searching information on them and sharing of personal views by many. However, the important role that can be played by it needs to be focused upon as well, he stated.

The first keynote speaker, Dr. Tilak Jha highlighted several aspects relating to the use and misuse of social media. He stressed on the need for people to recognize the origin and intent behind spreading information. He talked about the role of social media in authoritarian regimes. He spoke on the relevance social media has come to occupy in India and many other countries across the world. He brought together the positive as well as negative role of social media.

Mr. Sumit Chaturvedi spoke on the role of social media as an instrument of democratization as well as force used by reactionary groups. He stated that social media gives space to vulnerable groups to voice their opinions on issues. The dominant groups as well use it to further squash the lesser privileged and downtrodden in many cases he suggested.

Rappoteur: Ms. Minakshi Biswas
