Dept of Education

INTRODUCTION AND ORGANIZATION

The Department of Education of Bamanpukur Humayun Kabir Mahavidyalaya organised online extension programme on Environment Day dated 5.6.20. The requisite permission was sought from the principal of the college for the same online, and the allotment of time and date was confirmed Notice were circulated to the students and the teachers accordingly online.

BACKGROUND OF ONLINE EXTENSION

In India, around 250 million students were affected due to school closures at the onset of lockdown induced by COVID-19. The pandemic posed several challenges in schools and colleges which included an expected rise in dropouts, learning losses, and increase in digital divide. Covid-19 pandemic is the first and the foremost a health crisis. The World-Wide lockdowns because of the global pandemic have affected many important sectors adversely, one of them being the Education sector. The pandemic forced many schools, colleges and universities to keep it closed abruptly. In a short span of time, the students were exposed to online learning. The sudden change of classroom learning to digital learning impacted the learning of the children belonging to low-income families. As they were not able to afford smart phones, computers or laptops, wi-fi etc. came to become their immediate disadvantage. All the schools and universities have created online curriculum structure for day-to-day teaching and learning and also shifted, postponed or cancelled many regular and competitive examination. It has also increased the students need to adapt at using gadgets and online platforms overnight. Online schooling has created a digital spilt among the rich and the poor students. Majority of the students from the rural areas were unable to explore the online learning as they were having limited or no internet access. The educated parents were able to support their children throughout the pandemic in their learning but they were parents who are illiterate and also their helplessness to help their children in learning. Bamanpukur Humayun Kabir Mahavidyalaya although located in the rural area, the students prepared for the on-line extension on observation of world Environment day.

OBSERVATION OF ENVIRONMENT DAY

Environment day is celebrated worldwide on 5th June to create awareness among people about protecting the environment. The first-ever Environment Day was held in 1973. Environment Day acts as a platform that helps create awareness about various issues that have adverse effects on the environment, like global warming, overpopulation, pollution, and crime against wildlife.

The environment plays an integral role in maintaining the balance of the ecosystem we live in. Most people don't understand the importance of the environment and end up damaging it with their various activities. If we continue to degrade the environment, in the long run, the adverse effects will affect human beings too. So, to protect the environment, one should focus on sustainable development. In this way, the demands of human beings will be met without overexploiting the natural resources of the environment.

On the 5th of June 2020, BHKM, Department of Education and NSS organised Environment Day celebrations. The main aim of the event was to increase awareness among students about the importance of the environment and the need to protect it. The aim behind organizing this program was to give awareness to people about keeping the environment clean and safe from pollution. For this purpose, plant more trees to purify the air and make the earth green. The program started with the introductory speech of Dr.S.Biswas Principal BHKM then the awareness poster was circulated among the groups . The students of Department of Education along with NSS members after departmental meeting with the permission of Principal BHKM, launched awareness posters.

OBJECTIVES OF THE ON-LINE EXTENSION

- ✚ An education system in rural communities has the opportunity to build capacity and knowledge in the rural population, helping them to make informed decisions about their farms and to innovate in agricultural affairs.
- ✚ Education also exposes the masses to information and helps prevent the misinterpretation of information.
- ✚ To raise the standard of living of the rural people by helping them in right use of their resources.
- ✚ To help in planning and implementing the family and village plans for increasing production in various occupations.
- ✚ To provide facilities for better family living during covid – 19.

ROLE OF STUDENTS IN ONLINE EXTENSION

- ✚ Online extension has helped students to become independent learners and foster leadership quality before they make their way into the real world.
- ✚ Students got opportunities to explore new extension method and platforms during the covid-19, which helped them to develop new skills and capabilities accelerating their growth,
- ✚ Extension is an informal educational process directed toward the rural population. This process offers advice and information to help them solve their problems. Students acts as a leader to the extension for the rural people.

OUTCOME OF EXTENTION

- ✚ The interventions through extension activities have resulted in improved literacy, reduced drug abuse, Hygienic surrounding, improved health, and cleanliness.
- ✚ Extension Activities aims at enabling our student/volunteers to develop social responsibility and learning by doing. Service attitude is essential for any students.

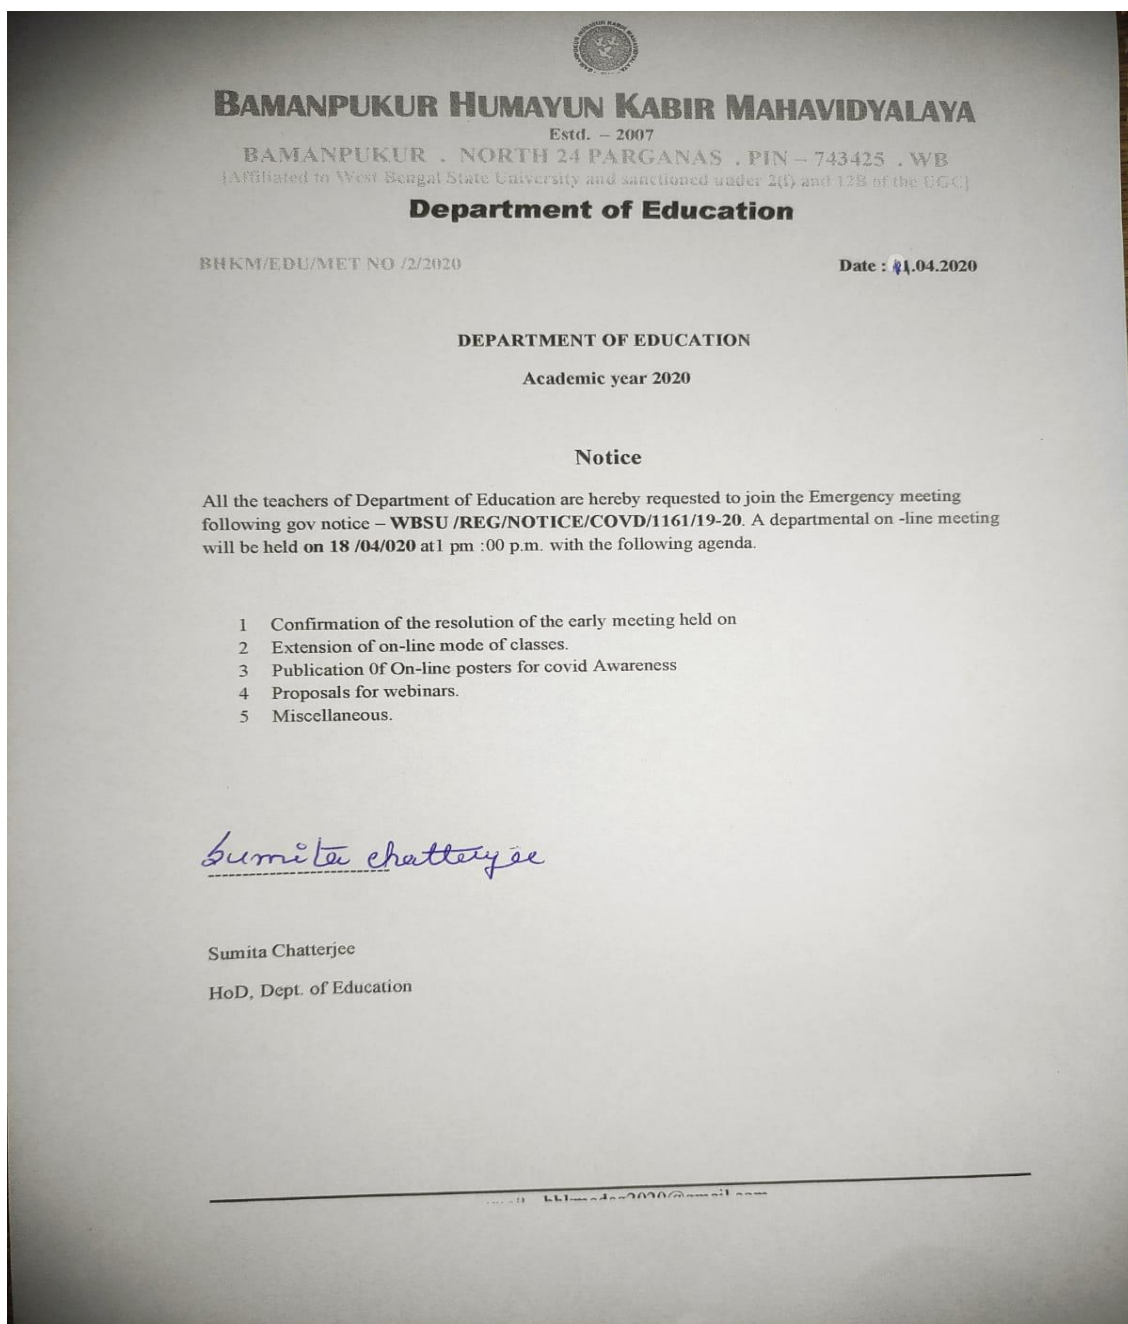

THE EXTENSION SESSION

The role of extension students while living among rural people is to bring necessary change in individual and collective behaviour and motivating them. For this, extension students are required to have knowledge about psychological factors, extension related training and technological knowledge. on covid – 19. The posters were circulated in the what's app group of the students and also in the college website also. In the meeting with the students along with the other members of the department, the proposal was accepted for publication of awareness poster by the department of Education.
